

Company Overview

Version: Nov.2019

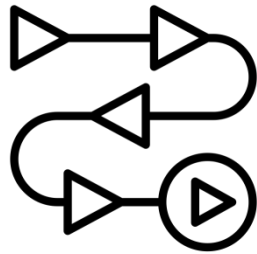

Overview

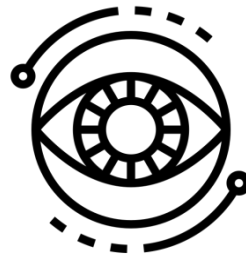

Name	Chips&Media, Inc
CEO	Steve Sang-Hyun Kim
Est. Date	March, 2003
Listed	KOSDAQ in 2015
Location	11-13F, 26, Samseong-ro 85-gil, Gangnam-gu, Seoul, Korea
Major Clients	NXP, Telechips, RealTek, Bitmain, Amlogic, Samsung, LGE etc
Website	www.chipsnmedia.com

CONTENTS

Designing The Future of Video Technology

Video Codec

Computer Vision

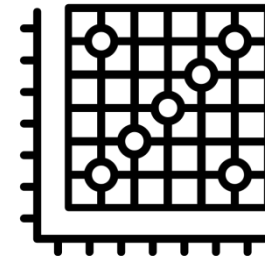

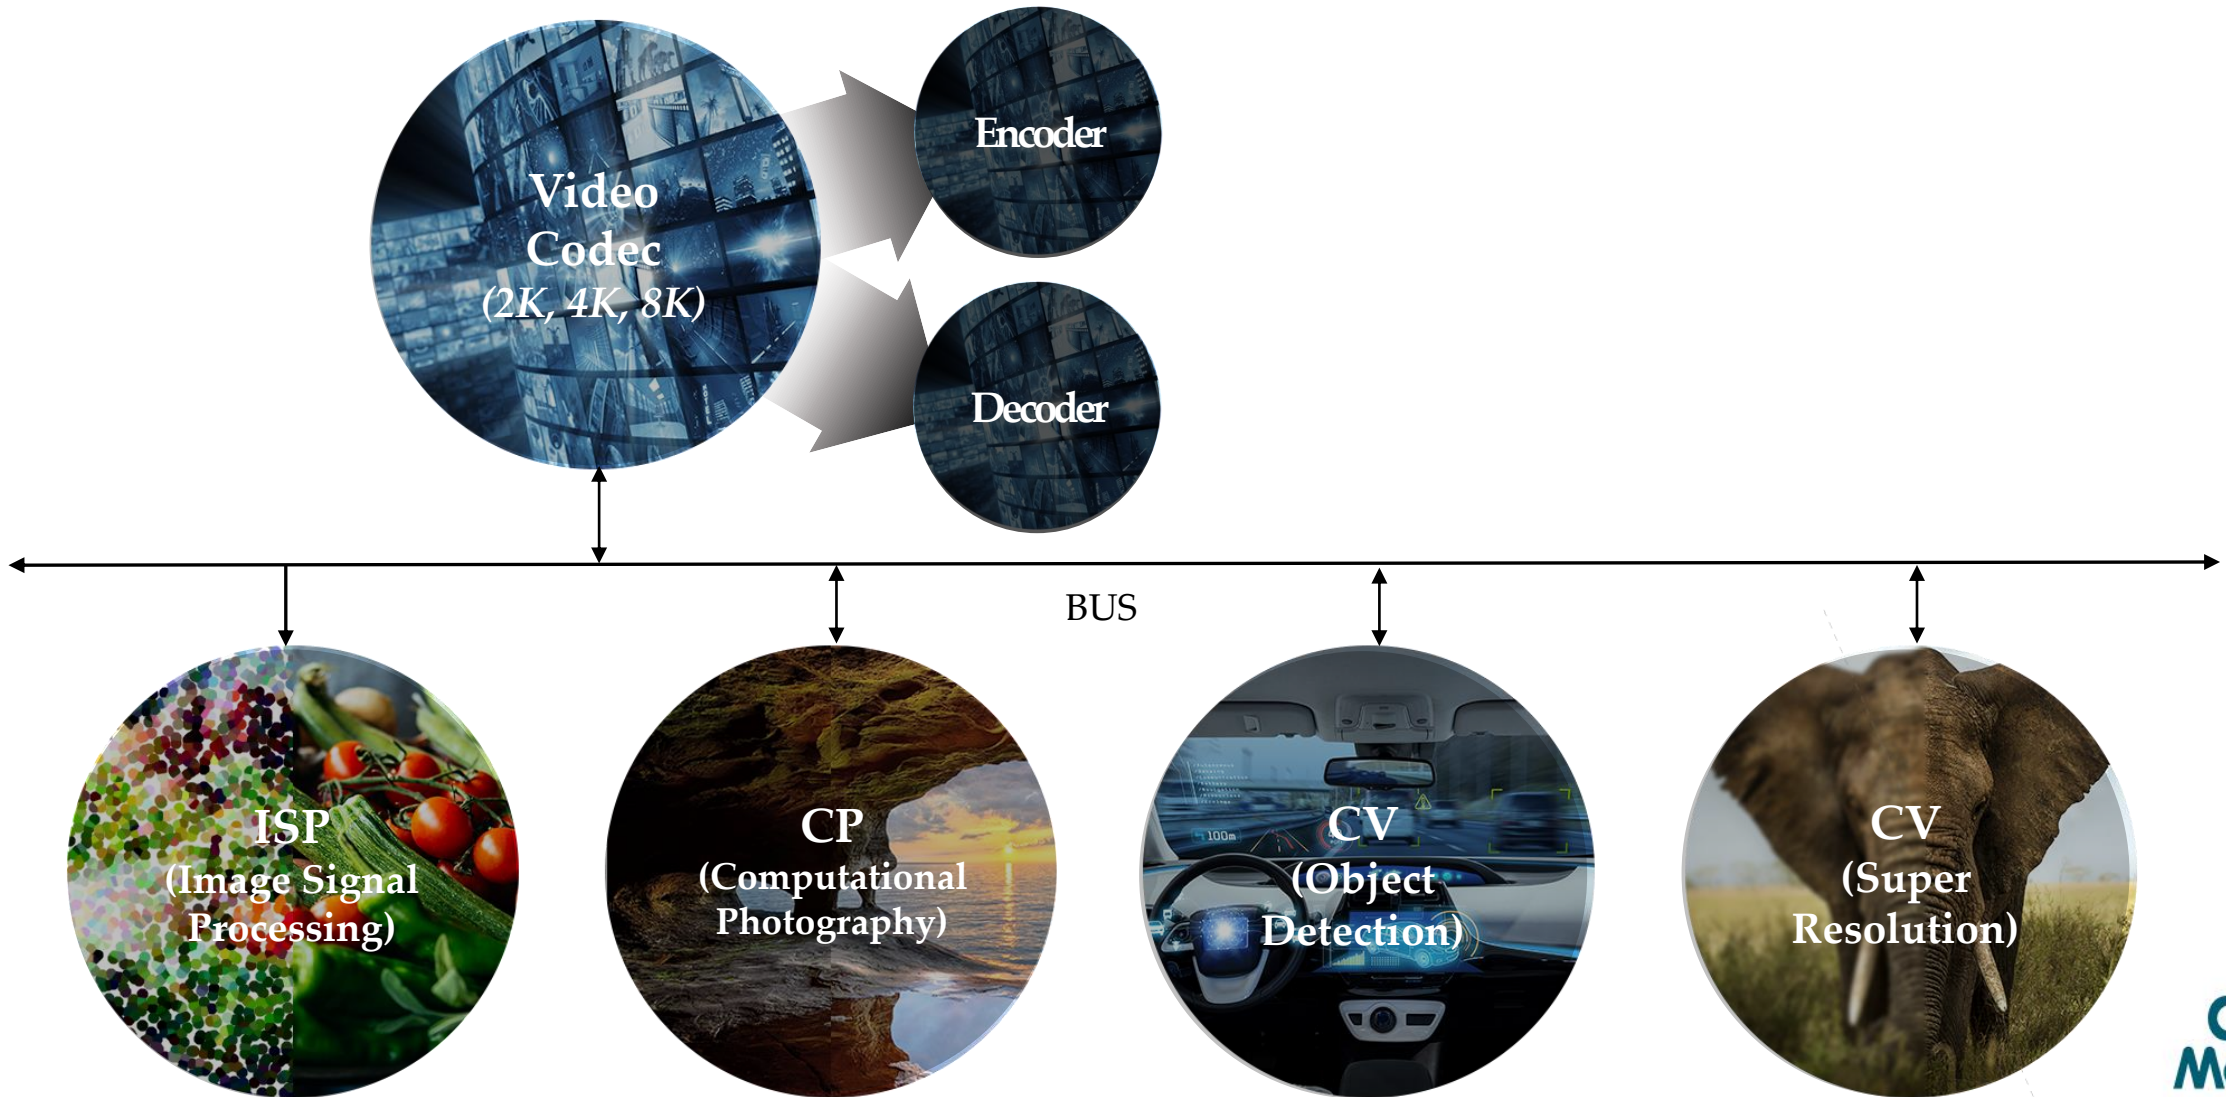

Image Signal Processing

Chips&Media, Inc, a global leading **semi-conductor HW IP provider**, was launched in 2003. Since its initial development of **Video Codec IP**, the company has accumulated and expanded its expertise to **Image Signal Processing**, **Computational Photography**, and deep learning-based **Computer Vision**. Chips&Media's IP is known for offering a wide range of applications with **low external memory bandwidth, less power consumption, and high-performance hardware IPs**.

Area of Business: IP Portfolio

The constant growth of the demand of video technology to a variety of consumer markets

Summary: Chips&Media Makes Difference

Global Leading Designed IP Provider in Multi-Media

- With more than **15 years of experiences**, 100+ SoC customers world-wide, 200+ IP delivered, 100M+ SoC Shipments per year from partners
- Aiming at pursuit of 3Bs: Best performance, Best Quality, Best Support
- **Providing Full Line-up of Multi-Media:** Video Codec, Image Signal Processing, Computer Vision
